

## Beam Park Grants Application Form

**You can apply for a grant of up to £1,000.  
(Please allow at least six weeks to process an application)**

The Beam Park grant funding pot is intended to help support and respond to local priorities within the Neighbourhoods where small amounts of funding can make a real difference.

Organisations or groups do not have to be a registered charity, but we do require organisations or groups to be not for profit, a voluntary or community group, a National Charity or Non-Profit statutory body.

The grants are one-off payments. Organisations and groups are required to be based in the UK, have a current bank account in place and support L&Q's vision:

**“Everyone deserves a quality home that provides them with the opportunity to live a better life.”**

### Eligibility

We will support projects that respond to local priorities for example

- ◆ Activities or projects that help to reduce isolation for older residents.
- ◆ Activities or projects that build residents capacity.
- ◆ Activities or projects that help to develop community cohesion.
- ◆ Activities or projects that will engage with people who face discrimination or disadvantage.

## Application form

Name of organisation	
Please state what type of organisation you are and confirm that you are 'not for profit':	
Contact name:	
Job title (at organisation):	
Contact telephone number:
